- Geolab
HTML, CSS
Completed in 2021
- geolab
Javascript / Angular 2+
Completed in 2021
- Unilab
Acceleration program Front-End
Completed in 2022

About Me

I am a frontend developer with a passion for creating beautiful and functional websites. My journey began in 2020 when I started learning HTML, CSS and JAVASCRIPT at Geolab, a leading technology education center. I was fascinated by the possibilities that these technologies offered, and I worked hard to master them.
